Dr. Tranny™

INSTANT SHUDDER FIXX

Description: Dr Tranny Instant Shudder Fixx is a concentrated friction modifier formulated specifically for eliminating torque converter shudder problems instantly. It is the number 1 shudder fix used by professionals and provides four times less wear than regular ATF.

Available in a uniquely engineered two ounce application tube, Dr Tranny Instant Shudder Fixx is compatible with conventional or synthetic automatic transmission fluid.

- A concentrated friction modifier formulated specifically for INSTANTLY eliminating torque converter lock-up shudder.
- Provides 4 x less wear than regular ATF.
- The original shudder fix.
- For use in most automatic transmission fluid. Not for use in Ford Type F or CVT applications.
