

# Fuelmiser Oxygen Sensors

The team from Motospecs are dedicated to providing the highest quality brands and solutions, and strive to continuously improve the product ranges and programs we provide to the market.

We are excited to announce that the Fuelmiser Oxygen Sensors range has been completely revamped and additionally, over 400 new part numbers have been added to the range. The new Fuelmiser Oxygen Sensors range now has over 860 part numbers on offer.

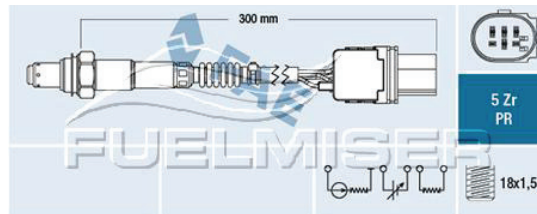

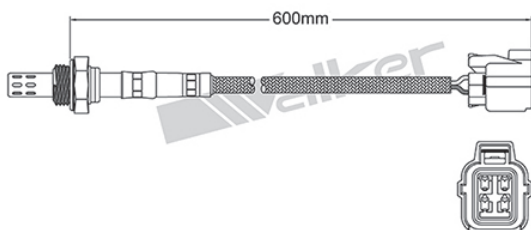

The complete program consists of direct fit sensors which are exact to the OEM manufacturer specifications in length and plug type. The Fuelmiser Oxygen Sensors are sourced from world class manufacturers including Walker USA, Denso, Delphi and FAE Europe.

The new range can be found in Gateway and Oscar along with images or identification drawings.
